

Dhanush Ranga Gopisetty

+91-7871016527 | dhanushrangag@gmail.com | linkedin.com/in/dhanush-ranga | github.com/dhanushranga1

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java, C++, Bash

Frameworks & Libraries: FastAPI, Next.js, SQLAlchemy, pandas, NumPy, Scikit-learn

Cloud & DevOps: AWS (EC2, S3, RDS, Lambda), Docker, Kubernetes, Terraform, GitHub Actions, Jenkins

Databases & Tools: PostgreSQL, Supabase, FAISS, Git, Prometheus, Grafana, Ansible

EXPERIENCE

Artificial Intelligence Intern

May 2025 – Jun 2025

Deep Algorithms Solutions

Remote

- Engineered FastAPI endpoints for document question-answering using transformer embeddings, improving answer relevance by 40% across 50+ test queries
- Implemented and evaluated neural architectures (CNNs, Transformers, Diffusion Models) for image segmentation, achieving 90% accuracy on validation datasets
- Automated data preparation pipelines using Python scripts, reducing manual processing time by 30% and improving experiment iteration speed

PROJECTS

TicketPilot • [Live Demo](#) | *FastAPI, Next.js, PostgreSQL, Supabase, FAISS, Gemini LLM*

- Developed AI-powered multi-tenant support platform using RAG pipeline with FAISS vector search, reducing customer query resolution time by 60%
- Implemented PostgreSQL Row-Level Security for secure data isolation between tenants, supporting 5+ concurrent users with zero data leakage
- Integrated Supabase authentication and deployed on Vercel/Render, achieving 99% uptime and handling 50+ monthly support tickets

CineReads • [Live Demo](#) | *FastAPI, Docker, Kubernetes, Terraform, Prometheus, GPT-4*

- Built movie-to-book recommendation platform integrating GPT-4 with Hardcover and TMDB APIs, serving personalized recommendations to 1,000+ monthly users
- Engineered file-based JSON cache using aiofiles, reducing API calls by 70% with 85% cache hit rate, saving \$200/month in external API costs
- Automated multi-cloud deployment with Terraform and Kubernetes, improving deployment frequency by 50% and reducing manual intervention by 80%

ScrubPy • [PyPI](#) | *Python, pandas, scikit-learn, Mistral LLM*

- Created Python library automating CSV preprocessing, reducing manual data cleaning effort by 40% for data scientists and analysts
- Integrated Mistral LLM for conversational data queries, enabling natural language interactions for data analysis and cleaning guidance
- Published on PyPI with 30+ downloads in first month; implemented modular architecture supporting extensible data transformation pipelines

EDUCATION

SRM Institute of Science and Technology

Kattankulathur, India

Bachelor of Technology in Computer Science Engineering • CGPA: 9.06/10.0

Aug 2022 – May 2026

- Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Operating Systems, Machine Learning, Computer Networks

ACHIEVEMENTS

AWS Academy Graduate – Cloud Foundations (2024)

Open Source Contributor – FOSSHACK 2024 & 2025

Published ScrubPy on PyPI – 30+ downloads in first month

Maintained 9.06/10.0 CGPA while building production-level projects
